

RIVO MULTITRADE OPTICAL SYSTEMS

Armenian 288-core optical cable manufacturer

Overview

Cables The company was established in December 7th in 1995 and from year to year is expanding the field of activities acquiring an image Buy Network & Fibe.

Key Takeaways

Redinet CJSC, Datacom, and SP Network are key Armenian companies providing high-capacity fiber optic solutions suitable for 288-core optical cables. Potential Suppliers in Armenia

Redinet CJSC specializes in turn-key fiber optic communication solutions, including design, installation, and maintenance of fiber optic links across Armenia. They maintain a warehouse with a permanent stock of fiber optic cables and components, and their team is equipped to handle large-scale projects, including high-core-count cables, splicing, and testing . Datacom offers structured cabling systems and fiber optic solutions, including single-mode and multi-mode fibers. They provide full installation, certification, and testing services, ensuring compliance with industry standards. Their expertise in SC, ST, LC, FC, and HT-RJ terminations makes them capable of handling complex, high-capacity fiber networks . SP Network supplies a range of fiber optic and network cables for indoor and outdoor applications. While specific core counts are not listed, they provide reliable connectivity solutions for telecom and data networks, which may include high-core-count cables like 288-core optical fibers .

Recommendations

- Contact Redinet CJSC to inquire specifically about 288-core optical cables and their availability for deployment projects. They have the technical capacity and experience for large-scale fiber installations .
- Consult Datacom for turnkey installation and certification services if you require both the cable and professional deployment support .
- Check SP Network for stock availability and potential supply of high-core-count fiber cables for your project needs . These companies collectively cover manufacturing, supply, and installation services, making them the most relevant options for sourcing 288-core optical cables in Armenia.
