Cable line Bhutan branch

Overview

Please click the link here to see the contact list of cable operators. [Contact List of Cable TV Operators.](#)

Key Takeaways

Bhutan has a structured network of local cable operators across its Dzongkhags, with digitization and monitoring overseen by the Bhutan InfoComm and Media Authority. Overview of Cable Services

Cable television in Bhutan is regulated and monitored by the Bhutan InfoComm and Media Authority (BICMA). The Authority conducts regular inspections and verification tours across Dzongkhags and Gewogs to ensure compliance with digitization directives, quality of service, and proper cable layout management. These efforts include monitoring local cable operators' control rooms, verifying set-top box registrations, and advocating technical and policy compliance to improve customer service.

Key Cable Operators and Coverage

Bhutan has numerous local cable operators serving different regions. Some notable operators include:

- Tobgyel Cable Sat Club – Phuentsholing Thromde, Chhukha
- Norling Cable – Thimphu Thromde, Thimphu
- Dogar Cable – Dawakha, Dogar Gewog, Paro

- Sigma Cable – Doteng, Lango, Shaba, Hungrel Gewogs, Paro
- TD Cable – Tang Gewog, Ura Gewog, Bumthang
- Thimphu Cable Service – Thimphu Thromde
- Lhuntse Cable Service – Lhuntse town, Tamangchu, Autsho A full list of operators, their contact persons, phone numbers, email addresses, and areas of operation is maintained by BICMA and can be accessed online .

Infrastructure and Digitization

Bhutan's cable network is increasingly digitized, with analog shutdowns in certain areas and the introduction of digital cable services. BICMA actively monitors the progress of digitization, ensuring that local cable operators comply with technical standards and provide reliable service . Subscribers can lodge complaints or inquiries through BICMA's online platform, social media, or designated focal officers .

Fiber and Connectivity Support

Cable operators often rely on Bhutan Power Corporation (BPC) and Bhutan Telecom (BT) fiber infrastructure for connectivity. BPC has installed optical fiber on transmission lines and distribution poles, extending connectivity to Dzongkhag administration offices, community e-centres, IT Tech Park, and hydro power plants . This nationalized fiber network supports both cable and internet services, enhancing reliability and coverage.

How to Contact Cable Operators

Subscribers can reach out directly to local cable operators for service inquiries, installation, or technical support. For example:

- Dogar Cable, Paro – Contact: 17775555, Email: tshewangrinzin1989@gmail.com
 - Sigma Cable, Paro – Contact: 17110772 / 77213777, Email: sigmacablesparo@gmail.com
 - TD Cable, Bumthang – Contact: 17637241, Email: hoteljakarviewbum@gmail.com
- For a complete directory, BICMA provides a detailed contact list of all licensed cable operators across Bhutan .

Summary

Bhutan's cable line services are well-regulated, with a focus on digitization, quality monitoring, and customer support. Subscribers can access services through numerous local cable operators, supported by national fiber infrastructure, and can contact operators directly or through BICMA for assistance .
