

Construction Site New Type Distribution Box Manufacturer

Overview

From decentralized energy, signal and data distribution to distribution boxes for smart buildings, we offer the right solution.

Key Takeaways

Leading manufacturers of construction site distribution boxes include BOSECKER, Wieland, INDU-ELECTRIC, Elektra, and Modipro, offering robust, safe, and customizable solutions for temporary and mobile power distribution. Key Manufacturers and Offerings

1. BOSECKER BOSECKER produces construction site power distributors compliant with IEC 61439 and IEC 60364 standards. Their products feature robust sheet steel housings, high IP ratings (IP65–IP67), and impact resistance (IK08–IK10). They offer both pre-wired and customizable solutions suitable for medium and high-power applications, including three-phase consumers on building sites . 2. Wieland Wieland specializes in smart, pluggable, and decentralized distribution boxes for flexible building projects. Their solutions support power, signal, and data distribution, enabling short planning and prefabrication. Wieland boxes are designed for harsh environments, moisture resistance, and integration into smart building systems, complying with IEC 61439 and IEC 61535 standards . 3. INDU-ELECTRIC INDU-ELECTRIC offers tailor-made power distribution units for construction sites, events, and industrial applications. Their portfolio includes mobile sub-distributions, compact small units, and wall-mounted solutions. High vertical integration allows precise adaptation to mechanical and electrical requirements, ensuring safe, efficient, and practical power distribution in demanding environments . 4. Elektra Elektra's construction site current distributors feature intelligent plastic housings with cross-divided inlet/outlet openings and folding strain relief clamps, reducing connection time by up to 50%. Their designs allow easy access to fuses and meters without removing covers completely, enhancing safety and convenience during installation and maintenance . 5. Modipro Modipro provides robust and reliable distribution boxes for workshops, temporary installations, and construction sites. Their units handle high current capacities (16 A to 63 A) with multiple outlets, individual circuit breakers, and RCD protection. They offer mobile and fixed installation variants suitable for heavy tools, machines, and lighting, ensuring compliance with safety and performance standards .

Features to Consider

- Safety: RCD protection, circuit breakers, and IP-rated enclosures for dust and water resistance.
- Mobility: Stackable, portable, or wall-mounted units for flexible site deployment.
- Customization: Pre-wired or modular designs to match site-specific power requirements.
- Compliance: Adherence to IEC standards (61439, 60364, 61535) for electrical safety and performance.
- Durability: Impact-resistant housings (IK08–IK10) and robust materials for harsh construction environments. These manufacturers provide a range of new type distribution boxes suitable for modern construction sites, offering flexibility, safety, and efficiency for temporary or permanent power distribution needs.
