

Cost of Vertical Bend of Cable Tray

Overview

Cable Tray Junction Kit, 90 Degree, Carbon Steel Cable Tray Fitting, 90° Junction Kit.
Material: Carbon Steel.

Key Takeaways

Vertical cable tray bends typically range from ₹65 per kg to ₹100 per piece, depending on type, material, and supplier.

Vertical bends are specialized fittings used to redirect cable trays between different elevations, ensuring proper cable support and minimizing stress on conductors . Prices vary based on material (steel, galvanized, stainless), angle (15°, 30°, 45°, 60°, 90°), and whether the bend is an inside or outside type . Standard general-purpose bends are commonly used in office buildings, data centers, and industrial installations, while diversity bends are suited for multi-system routing .

Typical Pricing Examples in India

- Rudra Corporation: Starting at ₹65 per kg
- Clevermesh Industries Private Limited: Starting at ₹100 per piece
- Ramdev Steel Industries: Starting at ₹100 per piece

Factors Affecting Cost

- Material: Stainless steel or fireproof coatings increase price.
- Angle and Type: More complex bends (e.g., 90° or multi-path diversity bends) cost more.

- Customization: OEM or bulk orders may offer discounts but require minimum quantities .
 - Finish: Electroplated zinc, galvanized, or acid-resistant finishes can affect pricing .
- Where to Buy
- Local suppliers: IndiaMART and ExportersIndia list multiple vendors with competitive pricing .
 - Online marketplaces: Alibaba offers customizable vertical bends with factory pricing for bulk orders .
 - Electrical supply stores: Platt Electric Supply and similar distributors provide standard bends with detailed specifications . For accurate budgeting, it is recommended to contact suppliers directly to confirm current prices, availability, and shipping costs, especially for large or customized orders.
