

RIVO MULTITRADE OPTICAL SYSTEMS

Customized FRP cable trays manufacturer

Overview

Need a faster quote, a qualified alternative supplier or a long-term cable tray manufacturing partner?

Key Takeaways

Leading manufacturers like IndiGrate Composites, HDmann, Chemitech Group, Ganga Fibrotech, and Creative Composites Group offer high-quality, customizable FRP cable trays for industrial and commercial applications. Key Manufacturers and Offerings

1. **IndiGrate Composites** IndiGrate Composites designs and manufactures FRP cable trays with high strength, corrosion resistance, and UV protection, suitable for harsh environments such as chemical plants, offshore platforms, and power facilities. They offer custom-engineered solutions with options for fire retardance (UL-94 & ASTM E84) and industrial-grade corrosion resistance, ensuring long-term reliability and minimal maintenance .

2. **HDmann Cable Management System** HDmann provides FRP ladder and tray cable systems that are lightweight, non-conductive, and corrosion-resistant. Their trays can be customized in color, width, height, resin type, and perforation style, with protective layers for enhanced UV and chemical resistance. These trays are ideal for offshore oil, LNG, and other industrial installations .

3. **Chemitech Group** Chemitech Group manufactures FRP cable trays using top-quality fiberglass and UV-stabilized resin, ensuring resistance to UV light, chemicals, and high temperatures. Their trays are rust-free, lightweight, and capable of supporting large cable loads, and they offer custom solutions for both commercial and complex industrial installations .

4. **Ganga Fibrotech** Ganga Fibrotech specializes in premium FRP and GRP cable trays, combining glass fiber frameworks with high-strength resins such as unsaturated polyester, epoxy, and phenolic. They provide customized solutions for industrial electrical and instrumentation needs, with over 30 years of experience in manufacturing tailored fiberglass products .

5. **Creative Composites Group** Creative Composites Group offers Enduro FRP cable trays designed for extreme conditions, including chemical plants, offshore platforms, and refineries. Their trays are pultruded for high durability, chemical resistance, and structural strength, and can be customized to meet specific industrial requirements .

Customization Options

- Tray Type: Ladder, solid-bottom, perforated, or tray cable
- Resin Type: Polyester, epoxy, phenolic, or UV-stabilized
- Fire Retardance: UL-94, ASTM E84 compliance
- Dimensions: Width, height, and length tailored to project needs
- Color and Coating: UV protection, anti-corrosion coatings
- Accessories: Supports, brackets, and installation hardware

Applications

Customized FRP cable trays are widely used in chemical plants, offshore oil and gas platforms, power facilities, water treatment plants, and industrial complexes. They provide lightweight, corrosion-resistant, and non-conductive solutions that reduce maintenance costs and improve safety in harsh environments. For sourcing, it is recommended to contact these manufacturers directly to discuss project-specific requirements, technical specifications, and installation support.
