

RIVO MULTITRADE OPTICAL SYSTEMS

Dimensions of the concealed door for the wall-mounted electrical distribution box

Overview

NSYS3D6620T - Wall mounted steel enclosure, PanelSeT S3D, transparent door, without mounting plate, 600x600x200mm, IP66, IK08. This guide explains typical wall-mount and floor-standing dimensions, how to read catalog sizes, and how to choose the right enclosure size for your layout. In practice, “standard sizes” usually means the common size families. With full welded process and door frame flap design, the AE series electrical box could be much more stable. E-abel's standard featured wall mounted box is with 80µm RAL7035 powder coating, high quality 13mm gasket, 1.5mm enclosure wall thickness meeting IEC or ANSI standard. Glazed door opens up to 120° for easy equipment access. 5mm galvanised steel sheet and incorporates concealed removable hinges with captive pins. Wall-mounting of the compact enclosure or wall-mounted enclosure through 4 Ø 9 mm holes in the rear wall, distance from the outside of the enclosure. The MISTRAL41W series of consumer units gives installers the freedom and flexibility to implement almost any type of electrical distribution system in industrial, commercial and residential environments.
