

Egypt Bridge Construction

Overview

A programme of bridge building in Egypt's capital Cairo will improve transport and help cut the chronic congestion in the city. The programme of works is worth just over US\$895. The Suez Canal Bridge (also known as the Suez Canal Peace Bridge or the Japan-Egypt Friendship Bridge) is a cable-stayed bridge crossing the Suez Canal at El-Qantara, whose name means "the bridge" in Egyptian Arabic. The bridge links the continents of Africa and Asia. The Arab Contractors Company under the supervision of the Armed Forces Engineering Authority – Military Engineers Department implemented Taha Hussein Bridge. The project represents an important traffic artery that it connects El-Mokattam Hill with Autostrad Road and Al-Hadara Axis, which. Egypt has constructed 945 bridges and tunnels at a total cost of EGP 132 billion over the past decade, according to a statement released by the Ministry of Transport detailing the ministry's achievements in the 10 years from 2014 to 2024. Egypt constructed 945 bridges, tunnels, and over 6,000 km of. As the main contractor of the Al Fayoum HSR Bridge Intercity Cairo & Fayoum project in Egypt, EDECS is responsible for the infrastructure construction of 14,000 m of deep foundation piles and an 80,000 m³ box girder concrete deck slab reinforced with high-strength prestressing wires.
