

Egyptian galvanized cable tray manufacturer

Overview

Cable Tray Manufacturer In Egypt | Metal StoreMetal Store is a leading cable tray manufacturer in Egypt, providing Cable Tray Systems & Solar Energy Rovana.

Key Takeaways

Egypt has several reputable manufacturers and suppliers of galvanized cable trays, offering durable, corrosion-resistant solutions for industrial and commercial projects. Leading Manufacturers and Suppliers

Rovana Trade is a prominent Egyptian manufacturer specializing in cable trays, cable ladders, and electrical cable management systems. They provide galvanized cable trays with complete supply and installation services across Egypt, delivering customized and durable solutions for industrial infrastructure and electrical projects . EIG offers a wide range of cable trays, including electro-galvanized steel trays and other materials like stainless steel and aluminum. Their galvanized trays are coated with zinc to prevent corrosion and extend service life, suitable for various engineering applications . Brilltech Engineers provides hot-dip galvanized cable trays, ensuring superior durability and corrosion resistance. Their trays feature perforated designs for ventilation, preventing cable overheating, and are designed for quick installation, making them ideal for power plants, commercial buildings, and industrial projects . MS Steel (Metal Store) manufactures and supplies cable tray systems with in-house hot-dip galvanization and electrostatic painting facilities. They offer trays with thicknesses from 1.0 mm to 3.0 mm, suitable for outdoor and high-heat applications. Their products include perforated and mesh designs for optimal cable protection and ventilation . PI Manufacturing Solutions specializes in engineering and manufacturing cable management systems, including galvanized cable trays, ladders, and trunks. They provide custom designs to meet harsh environmental conditions, such as dust, rain, and corrosion, and can accommodate specific project requirements .

Key Features to Consider

- **Material and Coating:** Hot-dip or electro-galvanized steel for corrosion resistance.
 - **Design Options:** Perforated, mesh, or solid trays for ventilation and cable protection.
 - **Customization:** Sizes, thicknesses, and configurations tailored to project needs.
 - **Installation Services:** Many suppliers offer full installation support.
 - **Compliance:** Products often meet international standards for durability and safety.
- These manufacturers provide reliable solutions for industrial, commercial, and infrastructure projects, ensuring long-lasting performance and efficient cable management. For procurement, it is recommended to contact the suppliers directly to discuss specifications, customization, and delivery options.
