

Fc-sc to zinc alloy adapter

Overview

The female-female push-pull adapter is fully compliant with TIA/EIA, IEC, and JIS-C-5973 and can be ordered with either a singlemode grade Phosphor Bronze or Zirconia Ceramic sleeve. Mounting is via two metal locking tabs attached to the body or use of two self-tapping screws. SENKO's hybrid adapters have been designed to precisely align the end faces of different connector systems for applications that require mating SC to FC connectors. * Based on Master Grade jumper to Low Loss random mating. The "SC" connector is a standard square connector, using engineering plastics, which has the advantages of high temperature resistance and not easy to oxidize. Connector Type: FC, SC, LC, ST, MPO, MTRJ 2. Structure: Simplified, Duplex, Quad 5. Sleeve: copper alloy, Zinc alloy 7. Basically, it lets you use one probe with different types of fiber cables without needing multiple. The HUBER+SUHNER CLIK! adapter family provides high-performance, durable, and easy-to-install connectivity solutions, primarily for FTTA applications.
