

RIVO MULTITRADE OPTICAL SYSTEMS

Fiber Optic KVM Workstation Collaboration Solution

Overview

Fiber KVM Collaboration System (non-IP) is based on distributed and scalable architecture with optional features and different host channels, which can be configured as a KVM matrix, KVM Switch, KVM extender, video wall controller or all of them in same system. The 4K@30Hz Distributed KVM Workstation Management System is a next-generation solution for high-performance video and KVM signal distribution in control centers, data centers, and collaborative workspaces. It features 1 HDMI input and 1 HDMI output, 4 USB 2. With 3 marketing centers, more than 23 offices, sales and service network around the. All Rexton KVM Over Fiber Extenders are mostly applied in high-EMI environments where the EMI-Immune nature of the optic fiber system is advantageous. These video. Configure your individual KVM project quickly and easily with our free online tool – suitable for all projects: from individual extension lines to highly complex matrix applications. Download and flip through our new catalog! Use our products to customize, improve, and enhance your operational. ● Unmatched Stability with Fiber Optic: Our fiber optic connection eliminates electromagnetic interference (EMI) and provides optical isolation, guaranteeing uninterrupted and superior video transmission. Ideal for data control centers, university campuses, hospitals, sports arenas, and more. The fiber-optic connection allows raw, uncompressed data to travel between the remote.

Article Content

4K@30Hz Distributed KVM Workstation Management System – HDMI

It features 1 HDMI input and 1 HDMI output, 4 USB 2.0 ports for peripheral control, and supports both POE (Power over Ethernet) and fiber optic transmission. With a fully decentralized

KVM Fiber Optic Extenders over Fiber up to 70 km | Rextron KVM

The Fiber Extender is designed to extend signals over Optical Fiber for long-distance transmission. Rextron is good at providing a variety of KVM solutions, including Fiber KVM extenders. Our

Fiber Optic KVM System for Workstation Collaboration

The project aims to build a fiber optic KVM management system to ensure that personnel in the duty room can securely and reliably access the server operation interfaces in the data center from their

4K Fiber KVM Extender up to 550m for Remote PC Control

With the capability to support up to 16 pairs of transmitter and receiver devices via a single Gigabit Ethernet switch, this fiber optic KVM extender offers seamless scalability and integration without the

Extio 2 Series | Quad Monitor KVM Optical Extender

The fiber-optic connection allows raw, uncompressed data to travel between the remote host system and the user-side Extio F2408 appliance, resulting in unmatched HD resolution support and

Professional KVM Switching & Extension Systems | Black Box

Black Box has a broad portfolio of KVM solutions that support CATx, fiber or IP-based extension and sharing of various video, peripherals, audio, and serial signals. From the desktop and data center to

Fiber KVM Extender

ServSwitch Dual DVI Single-Mode Fiber Optic KVM Extender, USB For computers with dual video heads, extend signals over single-mode fiber.

Multicon KVM over Fiber Switches| TRICOLOR

The Multicon KVM over fiber switcher allows multi users to work in a collaborative environment such as traffic command center, government control room. Guarantee you a 4K UHD and safety signal

Shop KVM Fiber Extenders | Markertek

Remote computer monitoring & control is easy with KVM fiber extenders from Markertek. Shop KVM Over Fiber Extenders and receive fast free shipping on orders over \$49!

CONSIDERATIONS FOR FIBER

CONSIDERATIONS FOR FIBER-BASED KVM EXTENSION If you're sending KVM signals between buildings for an extended distance, in areas supplied by different power sources, in an electrically e

How Fiber Optics and KVM Extenders Connect

Let's connect these two buildings using fiber optics and a KVM extender. The BZBGear® BG-UHD-18GFE KVM/HDMI long distance extender

DigiBird announces fibre based work station KVM solution

Products 22/05/2018 UniStation is an unified workstation management system created by DigiBird, it is designed to improve operators' efficiency, ergonomics, and comfort in the working area by providing

4K HDMI USB KVM Fiber Extender Over IP

4K 10.2Gbps HDMI USB KVM Extender with Video Wall Support Over IP via Two LC Singlemode/Multimode Fiber Optic Cables Extend an Ultra-HD 4Kx2K HDMI

Extio 2 Series | Dual KVM Optical Extenders | Matrox

Extio F2208 is a point-to-point KVM extender that uses fiber-optic cable to separate the keyboard, mouse, USB, audio peripherals, and up to 2 displays.

Extio 2 Series | Quad Monitor KVM Optical Extender

The Extio F2408 point-to-point, KVM extension solution separates the keyboard, mouse, audio peripherals, and up to 4 displays by up to 1 km via fiber-optic cable.

StarTech DisplayPort KVM Extender over Fiber

DisplayPort KVM Console Extender Over Fiber Optic, 4K 60Hz The Fiber Optic KVM Extender allows for control of a KVM switch, console, or PC from a
