How much does an imported construction site electrical distribution box cost

Overview

Power Distribution Box, 110V Electricity Meter Electrical Our metal boxes, distribution boxes, disconnectors, junction boxes and other How Much Is A Distri.

Key Takeaways

Imported construction site electrical distribution boxes typically range from \$150 to \$1,200 per unit depending on specifications, protection level, and customization.Pricing Overview

The cost of construction site electrical distribution boxes varies widely based on material, amperage, number of circuits, and environmental protection ratings. Standard industrial boxes for outdoor use with waterproof and impact-resistant enclosures generally command higher prices than indoor-rated units (e.g., IP65-IP67 protection) . Wholesale and bulk purchases can reduce per-unit costs, with factory-direct suppliers offering competitive pricing .

- Basic single-phase units: \$150-\$300 per unit
- Three-phase industrial units: \$400-\$800 per unit

- Customized or high-capacity units: \$800–\$1,200 per unit, including options for digital displays, circuit breakers, and remote monitoring

Factors Affecting Cost

- Material and Construction: Fiberglass, thermoplastic, and sheet steel enclosures differ in durability and price. Powder-coated steel or reinforced thermoplastics are preferred for harsh outdoor conditions .
- Protection Level: IP65–IP67 ratings for water and dust resistance increase cost, as do IK08–IK10 impact-resistant designs .
- Electrical Specifications: Higher amperage, multiple circuits, and integrated safety devices such as circuit breakers or surge protection add to the price .
- Customization: Pre-wired units, specialized mounting, or branded labeling can increase costs, especially for imported units requiring compliance with IEC standards .

- Shipping and Import Fees: Importing from overseas suppliers may include freight, customs duties, and taxes, which can add 10–25% to the base price depending on origin and shipping method .

Supplier Options

- Alibaba: Offers a wide range of wholesale construction distribution boxes with factory-direct pricing .
- Made-in-China: Provides industrial socket distribution boxes with built-in circuit breakers and multiple protection levels .
- Global Sources: Lists over 50 manufacturers with fast shipping and competitive pricing for bulk orders .
- DirectIndustry: Features high-quality enclosures compliant with IEC standards, suitable for customized industrial applications . For an accurate quote, it is recommended to specify the required amperage, number of circuits, protection rating, and quantity when contacting suppliers, as these factors significantly influence the final price.
