

How to discharge a 300-meter fiber optic cable

Overview

In this informative guide, we'll walk you through the step-by-step process of stripping and preparing fibre optic cable for termination, covering techniques, tools, and best practices to help you achieve successful terminations in your fibre optic installations. Fiber optic cable recycling is not the same as “copper wire.” Fiber is glass + plastics + strength members, and it often shows up on bulky spools—so it needs the right route, not a random scrap bin. Here's a detailed breakdown of how to safely manage them: Glass fibers are extremely small and sharp; they can easily penetrate the skin, eyes. Fiber optic cables can be easily damaged if they are improperly handled or installed. It is imperative that certain procedures be followed in the handling of these cables to avoid damage and/or limiting their usefulness.
