

Iron Distribution Box Manufacturer

Overview

Iron BoxIron Box is a leading manufacturer of power cords for data centers, IT infrastructure, and other mission PDU Whips We offer high-quality PDU Whips.

Key Takeaways

Several manufacturers specialize in durable, metal-based distribution boxes, including custom all-iron enclosures for industrial and outdoor applications.Key Manufacturers

1. Shengen Fab Shengen Fab produces custom power distribution boxes with precise sheet metal fabrication, offering modular designs, flexible input/output configurations, and high-quality circuit protection. Their units are available in aluminum or stainless steel, UL-listed, and suitable for both indoor and outdoor use. They provide options for construction sites, industrial facilities, and entertainment applications, with advanced safety features like circuit breakers and ground fault protection . 2. E-Abel (China) E-Abel is a global enclosure manufacturer with production in Foshan, China. They offer full sets of electrical enclosures, including distribution boxes for residential, IT, industrial, outdoor, and EV charging applications. Their boxes feature welding-free designs, patented mounting brackets, and side racks, which improve assembly efficiency and safety. E-Abel provides both standard and customized solutions with fast lead times and international shipping . 3. Atex Delvalle Atex Delvalle specializes in stainless steel distribution boxes and local control stations, including explosion-protected units for hazardous areas. Their enclosures are made from AISI 304L or 316L stainless steel, designed for extreme temperatures and outdoor conditions. They offer fully customizable solutions with worldwide certifications, making them suitable for chemical plants, refineries, and other industrial environments .

Considerations When Choosing a Manufacturer

- Material: All-iron or stainless steel for durability and corrosion resistance.
- Certifications: UL, IEC, or ATEX for safety and compliance.
- Customization: Modular designs, input/output flexibility, and optional monitoring features.
- Application: Indoor, outdoor, or hazardous environments.
- Lead Time and Support: Manufacturers offering rapid prototyping, mass production, and technical support can ensure timely delivery and installation. These manufacturers provide a range of robust, industrial-grade distribution boxes suitable for various applications, from standard power distribution to specialized hazardous area installations. Contacting them directly can help obtain custom specifications, pricing, and delivery options.
