

RIVO MULTITRADE OPTICAL SYSTEMS

National Drop Fiber Optic Cable Company

Overview

This section provides an overview for fiber optic cables as well as their applications and principles.

Key Takeaways

Several U.S.-based companies specialize in fiber optic drop cables, including Clearfield, Incab America, CommScope, Amerifiber, and Fiberdyne Labs. Key U.S. Fiber Optic Drop Cable Companies

Clearfield offers a wide range of drop cable solutions designed for flexible network deployment. Their products include outdoor and indoor fiber optic drop cables, assemblies, and configurations tailored to specific network environments, emphasizing rapid deployment and customization options for service providers and integrators (Clearfield), . Incab America manufactures and supplies fiber optic cables for aerial, ADSS, and OPGW applications. They provide full support from design to installation, serving construction companies, telecommunication operators, and industrial clients across the U.S. and internationally. Incab emphasizes reliability and customer involvement in system design (Incab America), . CommScope produces a variety of drop cables, including indoor and outdoor dielectric, armored, and gel-free options. Their portfolio supports FTTH deployments and includes singlemode and multimode fibers with various flame ratings and jacket types, suitable for both residential and commercial installations (CommScope), . Amerifiber is a leading U.S. manufacturer and distributor of fiber optic products, including patch panels, jumpers, enclosures, and custom-built solutions. Based in Georgia, Amerifiber focuses on on-demand service and product customization for network owners and integrators (Amerifiber), . Fiberdyne Labs, Inc. is a 100% U.S.-owned company specializing in fiber optic cable assemblies, termination boxes, media converters, attenuators, and splitters. They provide both stock and custom-made products, along with installation and fiber characterization services, serving data communications and telecommunications industries since 1992 (Fiberdyne Labs), .

Considerations for Choosing a Supplier

When selecting a fiber optic drop cable supplier, consider:

- **Product range:** Ensure the company offers the specific type of drop cable needed (e.g., armored, gel-free, indoor/outdoor).
- **Customization:** Some companies provide tailored solutions for unique network designs.
- **Support services:** Installation, design consultation, and field support can be critical for large-scale deployments.
- **Reputation and experience:** Established companies with proven track records in the U.S. market may offer more reliable products and services. These companies represent the primary U.S. options for fiber optic drop cables and related services, making them suitable alternatives if you are searching for a "National Drop Fiber Optic Cable Company."
