New Zealand Electrical Distribution Box Direct Sales Manufacturer

Overview

Distribution Boards NZ | Electrical DirectShop distribution boards online at Electrical Direct for switchboard builds, upgrades and electrical installation.

Key Takeaways

Key New Zealand manufacturers and suppliers of electrical distribution boxes include Electrical Direct, NHP New Zealand, and Gilbert Sheetmetal & Engineering, all offering direct sales and customizable solutions. Electrical Direct

Electrical Direct offers a wide range of switchboards, protection, and distribution components suitable for installations, maintenance, and project work across New Zealand. They provide tiered pricing for bulk orders (5+ units), making them ideal for larger projects or repeat purchases. Orders typically have a 4-6 day turnaround, and their team is available for product advice and pricing support from Monday to Friday, 9am-5pm .

NHP New Zealand

NHP specializes in terminal boxes and enclosures designed to protect electrical connections from dust, moisture, and accidental contact. Their product range includes:

- Fibox SOLID polycarbonate boxes for outdoor use with high UV resistance
- NLINE ABS terminal boxes for cost-effective, easy installation and labelling

- nVent HOFFMAN stainless steel boxes for high-impact and corrosion-resistant applications, including marine environments NHP also offers customization options, including DIN rails, hinges, brackets, and mounting plates to suit specific installation requirements .

Gilbert Sheetmetal & Engineering (GSME)

GSME manufactures aluminium and stainless-steel electrical cabinets, enclosures, meter boxes, and panels. They provide custom designs tailored to client specifications, including IP-rated enclosures. GSME can produce cabinets from stainless steel, mild steel, aluminium, galvanised steel, or Zintec, either powder-coated or raw finish. Their expertise covers a wide range of applications, from electrical and traffic infrastructure to switchboards and mounting frames .

PBTech

PBTech offers distribution and termination boxes, including lockable indoor/outdoor fibre termination boxes and UV-stabilized plastic enclosures. While primarily focused on networking and structured cabling, they provide ready-to-use distribution solutions suitable for smaller-scale installations .

Summary

For direct sales of electrical distribution boxes in New Zealand, the main options are:

- Electrical Direct: fast delivery, bulk pricing, trade and project support
- NHP New Zealand: versatile terminal boxes, polycarbonate, ABS, and stainless steel, with customization
- GSME: fully custom metal enclosures and cabinets, IP-rated, tailored to specifications
- PBTech: pre-configured distribution and termination boxes for networking and electrical projects These suppliers provide both standard and custom solutions, making them suitable for industrial, commercial, and infrastructure projects.
