

Palestinian Explosion-proof Lighting Distribution Box

Overview

Palestinian Explosion Proof Distribution Box Manufacturer Buyers. Connect with businesses actively looking to buy wholesale Palestinian Explosion Proof D.

Key Takeaways

Warom and Shenhai are leading brands offering certified explosion-proof distribution boxes suitable for hazardous environments in Palestine and the MENA region. Warom Technology

Warom is a prominent manufacturer of explosion-proof electrical equipment, including distribution boxes, lighting fixtures, control equipment, and motor switches. Their products comply with international standards such as IEC, ATEX, and IECEx, ensuring safety in hazardous locations like petroleum, chemical, marine, and mining industries. Warom operates a regional hub in the Middle East and North Africa, providing sales, technical support, assembly, and after-sales service, making their products accessible for Palestinian clients. Popular Warom series include CBY20-L distribution boxes and BHC aluminum enclosures.

Shenhai Explosion-Proof Technology

Shenhai is a Chinese manufacturer specializing in explosion-proof products, including distribution boxes, junction boxes, lighting fixtures, and pipe fittings. Their products are certified under ATEX and IECEx standards and have been widely used by major oil and gas companies such as Sinopec, CNPC, and Mobil . Shenhai emphasizes ISO9001, ISO14001, and ISO45001 certified production, ensuring high-quality and reliable explosion-proof solutions suitable for hazardous environments .

Other Brands Available in the Region

Local distributors in the Middle East, including Abu Bakar Engineering, offer a range of explosion-proof distribution boxes from multiple brands such as Warom, Cosime, Feam, Stahl, Killark, and Hawke . These products are designed to prevent sparks, water ingress, and corrosion, ensuring safe electrical distribution in explosive atmospheres.

Key Considerations

When selecting an explosion-proof distribution box for use in Palestine:

- Ensure the product is certified for ATEX, IECEx, or equivalent international standards.
- Verify the zone classification of the hazardous area (Zone 1, Zone 2, etc.) to match the box rating.
- Consider material and corrosion resistance, such as aluminum or stainless steel enclosures.
- Check for regional support and after-sales service, which Warom and Shenhai provide in the MENA region. For Palestinian applications, Warom and Shenhai are highly recommended due to their certifications, regional availability, and proven reliability in hazardous industries .
