Panel processing in Cambodia

Overview

Cambodia Panel Processing Equipment Market (2026-2032) | Trends. In the evolving Cambodia Panel Processing Equipment Market, digital procurement platform.

Key Takeaways

Cambodia hosts a growing panel processing industry, including electrical panels, aluminum profiles, and construction panels, supported by specialized manufacturers and system integrators. Electrical Panel Processing

Companies like MAUSO Co., Ltd. specialize in electrical power distribution and automated panel systems for buildings and industries in Cambodia and the Mekong region. They provide full lifecycle services from pre-sale consultation to after-sales support, acting as panel builders and system integrators to ensure compliance with technical standards and safety measures. Their expertise includes designing, manufacturing, and integrating high-quality, reliable panels for industrial and commercial applications.

Aluminum Panel and Profile Fabrication

Several Cambodian manufacturers focus on aluminum panel processing, which is widely used in construction, solar energy, and industrial applications:

- UP Aluminum Manufacturing (Kampong Cham) offers a vertical industrial solution covering billet casting, extrusion, surface treatment, and fabrication. They provide CNC and laser cutting, anodizing, powder coating, and wooden grain treatments for aluminum profiles used in architecture, solar PV frames, LED lighting, radiators, and automotive parts .
 - Aluvoltex produces custom aluminum profiles with precision machining and surface finishing, serving industries such as photovoltaic, automotive, and ladders. They emphasize lightweight, durable, and sustainable solutions .
 - Aluminum Extrusion Cambodia (Phnom Penh) handles extrusion, aging treatment, and surface treatments including powder coating, anodizing, and wood grain transfer. Their products include aluminum profiles for windows, doors, curtain walls, and industrial applications, with strict quality control and precision fabrication .
- Construction and Glass Panel Processing

Pang Luon (Pranet) Import & Export & Construction Co., Ltd. provides a wide range of construction panels, including aluminum composite panels, gypsum boards, polycarbonate sheets, and acoustic panels. They also offer glass processing services such as polishing, beveling, drilling, etching, engraving, hot bending, sandblasting, and CNC cutting. Their capabilities extend to installation of doors, windows, and decorative plaster products, making them a comprehensive provider for construction panel solutions .

Summary

Panel processing in Cambodia spans electrical, aluminum, and construction panels, supported by companies with advanced machinery, CNC and laser cutting, surface treatments, and system integration expertise. The industry serves construction, industrial, solar, and automotive sectors, offering both manufacturing and installation services. Cambodia's panel processing sector is increasingly sophisticated, combining local production with international standards to meet diverse industrial and architectural needs.
