Price of 150x72 Cable Tray

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

The price of a 150x72 mm cable tray typically ranges from £25 to £50 per 3-meter section, depending on material and supplier. Pricing Overview

- Heavy-Duty Pre-Galvanized Steel (3m length): A 150mm wide cable tray, part of the Premier Heavy Duty range, is available for around £25-£35 per 3-meter section. This tray is pre-punched, Unistrut compatible, and designed for industrial and commercial use, offering corrosion resistance and strength .
- Hot-Dip Galvanized Ladder Type (2.4m length): Prices for standard ladder-type trays of similar width are generally in the £30-£50 range per unit, depending on the supplier and specifications .
- Distributor Options: Retailers like Rexel and CPC UK offer competitive pricing for 150mm cable trays, with variations based on length, material, and whether the tray is solid, perforated, or ladder type .

Additional Considerations

- Length: Standard lengths are usually 2.4m or 3m; custom lengths may affect pricing.
- Material: Pre-galvanized steel is common for indoor use, while hot-dip galvanized or stainless steel is preferred for outdoor or corrosive environments.

- Bulk Orders: Many suppliers provide trade or bulk pricing, which can reduce the per-unit cost. Contacting the supplier directly is recommended for large quantities .
- Accessories: Fittings such as bends, tees, risers, and brackets are priced separately and should be included in the total project cost . For accurate pricing, it is advisable to check with suppliers like Direct Channel, Rexel, or CPC UK, as prices may vary based on stock availability, delivery location, and any additional specifications.
