

RIVO MULTITRADE OPTICAL SYSTEMS

Professional manufacturer of fiber optic patch cords for communication equipment rooms

Overview

Fiber Optic Patch Cord — SM, MM, Armored | TTI FiberShop fiber optic patch cords in LC, SC, FC, ST connectors. Single mode & multimode. Custom lengths avai.

Key Takeaways

GETEKnet, UnitekFiber, TTI Fiber, and Rosenberger are leading professional manufacturers of fiber optic patch cords suitable for communication equipment rooms. Key Manufacturers and Offerings

GETEKnet specializes in OEM fiber patch cords, providing standard and customized solutions for data centers, telecom, and FTTH projects. Their products include simplex and duplex patch cords, drop cables, and MPO solutions, with connectors such as SC/APC, LC/APC, SC/UPC, and LC/UPC. They offer indoor and outdoor-rated cables with UV resistance, weatherproofing, and bend-insensitive fibers, customizable in length, jacket material (PVC or LSZH), and fiber type (G.652D, G.657A1/A2) for flexible deployment . UnitekFiber manufactures duplex and simplex patch cords with LC, SC, FC, ST, and MPO/MTP connectors. They use high-quality Corning glass fibers and provide OEM services including custom colors, cable printing, and packaging. Their products are certified with RoHS, UL, and CRP, ensuring reliability and stability for enterprise and telecom networks . TTI Fiber offers a wide range of single-mode OS2, multimode OM1-OM5, and bend-insensitive G.657A2 fibers. Connector options include LC, SC, FC, ST, E2000, and MTRJ in UPC and APC polish grades. Specialty products include armored, LSZH, plenum-rated, and ruggedized tactical patch cords. They provide factory-tested cords with individual test reports, OEM branding, and custom lengths from 0.3 m to 100 m, suitable for high-density backbone connections and data centers . Rosenberger provides single-, dual-, and multifiber patch cords with connectors such as LC, SC, E-2000, MTP, SN, CS, and MDC. Their products comply with EN 50173 standards and IEC 60721-3-3 for indoor and weather-protected use. They offer fast delivery, online ordering, and a 5-year guarantee, making them suitable for IT hardware connections and structured cabling in communication rooms .

Considerations for Selection

When choosing a manufacturer for communication equipment rooms, consider:

- Fiber Type: Single-mode for long-distance, multimode for short-distance connections.
- Connector Type: LC, SC, FC, ST, MPO/MTP depending on equipment compatibility.
- Environmental Rating: Indoor, outdoor, plenum, or armored for harsh conditions.
- Customization: Length, jacket material, color coding, and OEM branding.
- Certifications: RoHS, UL, ISO 9001, and compliance with industry standards for reliability. These manufacturers provide high-quality, customizable fiber optic patch cords that meet the performance and environmental requirements of modern communication equipment rooms.
