

RIVO MULTITRADE OPTICAL SYSTEMS

Standard cable trays in Kazakhstan

Overview

Cable trays supply KazPowerTrade Almaty, Kazakhstan. The adders are made from sheets of steel, which ensures the durability during the course of their operat.

Key Takeaways

Kazakhstan offers a wide range of cable trays including ladder, perforated, solid, and wire types, made from galvanized steel, stainless steel, and FRP, suitable for industrial and commercial installations.

Types of Cable Trays

- Ladder Trays: Ideal for large cables and high current capacity, providing excellent ventilation and support. Commonly used in industrial sites, shopping centers, and office buildings (KWANG MYUNG system) .
- Perforated Trays: Used for routes with significant power or large cross-sectional cables, allowing heat dissipation and easy cable fastening .
- Solid Bottom Trays: Provide full protection for cables, suitable for sensitive or low-voltage installations .
- Wire Mesh Trays: Lightweight and flexible, suitable for fast and cost-effective cable routing .

Materials and Finishes

- Galvanized Steel: Hot-dip, deep, or pre-galvanized for corrosion resistance .
- Stainless Steel: For high durability and chemical resistance .
- FRP (Fiber Reinforced Plastic): Lightweight, corrosion-resistant option .

- Powder-Coated Steel: Provides additional protection and aesthetic finish .

Accessories and Installation Features

- Connectors and Couplings: Plates, rod brackets, and universal connections for flexible installation .
- Bends and Branching: Horizontal and vertical bends, track branching, and division for power and data cables .
- Mounting Options: Wall-mounted, ceiling-suspended, or floor-supported systems .
- Covers: Optional tray covers for additional cable protection .

Load and Duty Ratings

- Light Duty: Suitable for small cable loads in commercial buildings .
- Medium to Heavy Duty: Designed for industrial applications with higher cable weight and density .
- Extra Heavy Duty: For large-scale industrial or utility installations requiring maximum support .

Manufacturers and Suppliers in Kazakhstan

- KWANG MYUNG: Specializes in ladder-type metal trays with high current capacity and ventilation .
- THE ANCHORS LLP (Atyrau): Offers a variety of tray types with integrated fixings and multiple finishes .
- ELCOS: Produces perforated, ladder, solid, and wire trays with customizable sizes and accessories .
- Promet Metalwork Plant (Almaty): Provides u-shaped metallic trays, high-precision bending, and full installation services .
- Brilltech Engineers: Supplier and exporter of electrical cable trays in various materials and configurations .

Key Considerations

- Cable Type and Size: Choose trays based on the number and diameter of cables.
- Environmental Conditions: Select corrosion-resistant materials for outdoor or humid environments.
- Installation Flexibility: Consider trays with modular accessories for bends, branches, and multi-level routing.
- Compliance: Ensure trays meet national and international safety standards for electrical installations . Kazakhstan's cable tray market provides versatile solutions for industrial, commercial, and telecommunication projects, with options for customization, durable materials, and comprehensive installation support.
