Where should fiber optic patch cords be disposed of

Overview

Use Recology Bulky Item Recycling Pick-up Service. Place in sealed box and mark "E-Waste." "Best for: A small box of patch cords or short scrap. Different construction can change the best route. Also identify the spool or reel material: plastic vs wood vs steel/copper reel—packaging often needs its own stream. Handling and disposing of fiber optic cable, optical fiber chips, and debris must be done with great care due to the risk of injury and environmental harm. Here's a detailed breakdown of how to safely manage them: Glass fibers are extremely small and sharp; they can easily penetrate the skin, eyes. However, fiber optic cables also generate waste and environmental impact during their production, installation, maintenance, and disposal. Important Reminder: Many electronic products (computers, cell phones, tablets, etc.) are used to store personal information. Before donating or recycling your equipment, remember to remove all sensitive and personal information from. Fiber optic patch cords are widely used equipment connection accessories in the field of optical communication, and their role in fiber optic transmission cabling should not be underestimated.
