Wholesale of optical cables from Eastern Europe

Overview

Optical cables and FTTx Optical Cable & FTTx Our company specializes in high-quality optical cables and FTTx network components, offering fast Optical Fibr.

Key Takeaways

Eastern Europe hosts a diverse range of optical cable suppliers, offering fiber optic and telecommunication solutions for various industrial and commercial applications. Key Suppliers and Manufacturers

Eastern Europe has a growing network of fiber optic product suppliers, with 69 suppliers identified as of October 2025. These companies provide a wide range of optical cables for telecommunications, broadband, and specialized applications such as aerial, duct, and direct burial installations . Notable regional suppliers include:

- INTEGRA CABLE (Belarus): Specializes in high-quality optical fiber cables for telecommunications, infrastructure, and FTTH (Fiber to the Home) solutions .
 - PENGK KABEL GmbH (Austria): Offers customized fiber optic cables for telecommunications, railway, and broadband industries .
 - Polish manufacturers: Provide cost-competitive production with strong EU regulatory compliance, supporting large-scale projects .
- Product Types and Applications

Eastern European suppliers offer a variety of optical cables, including:

- Telecommunication solutions: Standard and high-performance fiber optic cables for data transmission.
 - FTTH solutions: Cables designed for direct home or office connections.
 - Specialized installations: Cables suitable for aerial, duct, or direct burial environments.
 - Industrial and railway applications: Customized solutions for signal and communication networks .
- Regional Advantages

Eastern Europe provides several strategic benefits for optical cable procurement:

- Cost-effective manufacturing: Competitive pricing compared to Western Europe while maintaining EU standards.
 - Regulatory compliance: Suppliers adhere to EN 50173, EN 50288, and EN 60794 standards for optical fiber cables, ensuring quality and safety .
 - Digital presence: Many suppliers maintain websites and social media profiles, facilitating direct contact and online ordering .
 - Clustered industrial hubs: Countries like Poland and Austria benefit from established supply chains, collaborative R&D, and shared testing facilities .
- Contact and Procurement

Suppliers in Eastern Europe often provide contact information, including phone numbers and emails, for direct inquiries. Databases and directories are available for purchase, offering sales-qualified leads to streamline procurement and business development . Data can be downloaded in formats such as CSV, Excel, or GeoJSON for integration into business systems. Eastern Europe's optical cable market is well-positioned to serve both local and international projects, offering a combination of quality, customization, and cost efficiency.
